

CHEERLEADING

PURPOSE: It shall promote school spirit, to develop and maintain good sportsmanship among the students and spectators, to coordinate their activities during athletic competition, and to maintain good relationships among schools.

ACTIVITIES: Cheerleading squads may participate in varsity, junior varsity, sophomore, and freshman levels of athletic competition.

MANAGEMENT: Squad members may not cheer in more than two games per week. The mascot must have a costume clearly defining the school nickname or symbol and be distinctive from the regular cheerleading uniform.

In an effort to coordinate basketball-cheering time, the following cheering sequence is recommended:

- A. During the first and third quarters, the visiting cheerleaders perform first.
- B. During the second and fourth quarters, the home cheerleaders will perform first.
