

# **Wheaton Warrenville South High School Athletic Department**

The mission of the Wheaton Warrenville South Athletic Department is to uphold the tradition of Tiger Pride in which coaches, parents, school and community work together to support student-athletes. Through these efforts, we encourage academic success, nurture healthy lifestyles, foster the development of character and establish relationships that last a lifetime.

As members of Community Unit School District 200, the DuPage Valley Conference and the Illinois High School Association, we believe:

- The Tiger coaching staff will, first and foremost, encourage, promote and support the involvement of our student-athletes in all Wheaton Warrenville South athletic and activity programs throughout the course of the academic year.
- Coaches and student-athletes should demonstrate and display a high level of character while in schools, on the playing field and in the community.
- Coaches, student-athletes, spectators and parents should demonstrate exemplary sportsmanship at all times and expect it from those around them.
- Knowing and understanding the tradition and history of Wheaton Warrenville South High School and its athletic programs is an important piece of the extracurricular experience.
- Appropriate parental and community involvement in athletics is crucial to the success of our programs.
- We are responsible for nurturing the academic, emotional, physical and moral well being of all student-athletes.
- By definition, athletics have a competitive component and we will strive to do so at the highest level possible.
